

10 life hacks

to be nominated to study abroad

- Increase your GPA starting from the first year of studies
current and cumulative grades are considered
- Follow the events announcements and participate in the extracurricular activities of GSB and HSE University
 *students in good academic standing that have scientific and extracurricular achievements or actively participate in the university life can apply for GSB scholarship*
- Develop your English language proficiency
increase your English level to B2 or higher
- Get an official certificate confirming your language proficiency 
some universities accept official certificates only
- Learn to write motivation letters and think of recommendation letters in advance
- Set an earlier deadline for yourself to prepare all the documents and submit an application in advance
- Attend offline and online events of International Office or schedule an individual consultation to learn more about the exchange opportunities
- Consider previous years' application & nomination statistics
- Ask the exchange programme participants about their experience, read the feedback published on our website
- Find scholarships and grants that would help you fund the exchange studies
